Corona (COVID-19) Virus Update

As the coronavirus situation continues to evolve, we are taking the necessary steps to do our part in the prevention of spreading the COVID-19 virus. The health and safety of our clients, community and Sitter Insurance Team are of the utmost importance. Given the unprecedented pandemic and fluidity of the situation we will remain agile to support all clients. With that said, we are prepared to address any changes in the course of how we deliver service to all clients.

Our Changes

We will continue to remain open as insurance needs are critical to the general public, but we have made the following temporary adjustments in accordance with State and Federal recommendations:

- Our doors will be locked to the general public. The doors will reopen as soon as the lock down is no longer recommended
- We have suspended all cash payments. Please call the office to make necessary accommodations.

You will have the same ability to contact as you normally would through phone call, email and text messaging. We will continue to monitor email and voicemail after hours. Also, if your insurance needs are after hours, you still have the ability to contact your insurance carrier.

Please contact me directly if you have any questions or concerns.

Regards,

Tony Cusati

Owner/Principal Agent
